Restrictions and Disclaimers

The information contained in this document, including all instructions, cautions, and regulatory approvals and certifications, is provided by the supplier and has not been independently verified or tested by Dell. Dell cannot be responsible for damage caused as a result of either following or failing to follow these instructions.

All statements or claims regarding the properties, capabilities, speeds or qualifications of the part referenced in this document are made by the supplier and not by Dell. Dell specifically disclaims knowledge of the accuracy, completeness or substantiation for any such statements. All questions or comments relating to such statements or claims should be directed to the supplier.

Export Regulations

Customer acknowledges that these Products, which may include technology and software, are subject to the customs and export control laws and regulations of the United States ("U.S.") and may also be subject to the customs and export laws and regulations of the country in which the Products are manufactured and/or received. Customer agrees to abide by those laws and regulations. Further, under U.S. law, the Products may not be sold, leased or otherwise transferred to restricted end-users or to restricted countries. In addition, the Products may not be sold, leased or otherwise transferred to, or utilized by an end-user engaged in activities related to weapons of mass destruction, including without limitation, activities related to the design, development, production or use of nuclear weapons, materials, or facilities, missiles or the support of missile projects, and chemical or biological weapons.

Increasing the Battery Life of your Mouse

The mouse has four operating modes built in to conserve battery power:

- 1. Sleep mode** When the mouse has been inactive for 5 seconds.
To wake the mouse: Move, click or scroll wheel.
- 2. Deep sleep mode** When the mouse has been inactive for 5 minutes.
To wake the mouse: Move or click.
- 3. Cut-off mode** When the mouse has been carried around or left facing upwards for 5 minutes.
To wake the mouse: Push the power button.
- 4. Cut-off mode** When the mouse has been inactive for 4 hours.
To wake the mouse: Push the power button.

Troubleshooting: Dell Travel Mouse WM524

If you have problems with your mouse:

- Check if the batteries are inserted in the correct orientation.
- Check if the mouse's power button light is on.
- Remove and reinstall the batteries. Check to see if the power button light turns on (solid white).
- If you experience connection issues, ensure your Bluetooth wireless feature has been enabled on your computer. Complete steps 1 to 4 in [Connecting your Dell Travel Mouse WM524 in Windows 7](#) or [Connecting your Dell Travel Mouse WM524 in Windows 8](#) to set up your mouse again.

Troubleshooting: Dell Travel Mouse WM524

- If mouse fails to reconnect after being idle, please check the power saving settings below:

Windows 7

1. Click the **Start** button and type **Device Manager**.
2. Click on **Device Manager** in the Results window.
3. In **Device Manager**, expand **Bluetooth** and select the **Bluetooth radio** .
4. Right click on the **Bluetooth radio** and select **Properties** .
5. On the **Advanced** tab, the Manufacturer Id will be 15 if your radio is Broadcom-based.
6. On the **Power Management** tab, uncheck the checkbox for **Allow the computer to turn off this device to save power** .

Troubleshooting: Dell Travel Mouse WM524

Windows 8

1. Select the **Search** charm and type **Device Manager**.
2. Select **Settings**. **Device Manager** should be listed in the results. Click on **Device Manager**.
3. In **Device Manager**, expand **Bluetooth** and select the **Bluetooth radio**.
4. Right click on the **Bluetooth radio** and select **Properties**.
5. On the **Advanced** tab, the Manufacturer Id will be 15 if your radio is Broadcom-based.
6. On the **Power Management** tab, uncheck the checkbox for **Allow the computer to turn off this device to save power**.

Specifications: Dell Travel Mouse WM524

General

Manufacturer	Logitech Inc.
Model number	WM524
Connection type	Bluetooth 3.0 wireless technology
Supported Operating Systems	Microsoft Windows 8 Microsoft Windows 7 Microsoft Windows RT

Electrical

Operating Voltage	1.0 V to 1.6 V
Battery life	Approximately 6 months
Battery required	2*AA Alkaline

Physical Characteristic

Height	35.0 mm
Width	56.0 mm
Length	99.0 mm
Weight	60 g, without batteries

Environmental

Operating temperature	0 °C to 40 °C
Storage temperature	-40 °C to 65 °C
Operating humidity	90% maximum Relative Humidity, non condensing
Storage humidity	95% maximum Relative Humidity, non condensing

Bluetooth 3.0 Wireless

Radio transmission	Bi-directional communication
Range	Up to 10 meters

Warranty: Dell Travel Mouse WM524

Limited Warranty and Return Policies

Dell-branded products carry a 1-year limited hardware warranty.

If purchased together with Dell system, it will follow the system warranty.

For U.S. customers

This purchase and your use of this product are subject to Dell's end user agreement, which you can find at www.dell.com/terms. This document contains a binding arbitration clause.

For European, Middle Eastern and African customers

Dell-branded products that are sold and used are subject to applicable national consumer legal rights, the terms of any retailer sale agreement that you have entered into (which will apply between you and the retailer) and Dell's end user contract terms. Dell may also provide an additional hardware warranty – full details of the Dell end user contract and warranty terms can be found by going to www.dell.com, selecting your country from the list at the bottom of the "home" page and then clicking the "terms and conditions" link for the end user terms or the "support" link for the warranty terms.

For non-U.S. customers

Dell-branded products that are sold and used are subject to applicable national consumer legal rights, the terms of any retailer sale agreement that you have entered into (which will apply between you and the retailer) and Dell's warranty terms. Dell may also provide an additional hardware warranty – full details of Dell's warranty terms can be found by going to www.dell.com, selecting your country from the list at the bottom of the "home" page and then clicking the "terms and conditions" link or the "support" link for the warranty terms.

Regulatory: Dell Travel Mouse WM524

Mouse Regulatory Model: WM-524

Regulatory Information

These devices comply with Part 15 of the FCC Rules. Operation of the devices is subject to the following two conditions: (1) The devices may not cause harmful interference, and (2) The devices must accept any interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy. If the equipment is not installed and used in accordance with the instructions, the equipment may cause harmful interference to radio communications. There is no guarantee, however, that such interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception (which can be determined by turning the equipment off and on), the user is encouraged to try to correct the interference by taking one or more of the following measures:

- Relocate this device.
- Increase the separation between the device and the receiver.
- Connect the device into an outlet on a circuit different from that of other electronics.
- Consult the dealer or an experienced radio technician for help.

Certifications: Dell Travel Mouse WM524

Microsoft WHQL Logo

The Dell™ WM524 Wireless Mouse has passed WHQL logo testing by Microsoft Windows Hardware Quality Labs.

WHQL Logo is a certification scheme operated by Microsoft Windows Hardware Quality Labs. In this case it ensures that hardware is compatible with Microsoft Operating Systems. The keyboard and mouse are qualified through the use of WHQL test kits and has been included in the Microsoft Hardware Compatibility List.
